

Criteria for SHIN-NY Regulated Entities: Article 28 Skilled Nursing Facilities, Article 36 Home Care and Article 40 Hospice Facilities

The New York State Department of Health, with support from the Centers for Medicare & Medicaid Services, has established the Data Exchange Incentive Program (DEIP) to increase health information exchange (HIE) adoption across the state by building electronic health record (EHR) interfaces to New York State’s HIE, the Statewide Health Information Network for New York (SHIN-NY). The SHIN-NY connects regional networks, or Qualified Entities (QEs). This program is designed to help offset the cost for organizations connecting to a QE.

Eligibility Criteria

An organization must:

- Utilize an EHR that has obtained **at least one** of the following Privacy & Security Assurances (A, B, **or** C):

A. ONC Certification* for, at a minimum, the following Privacy & Security criteria:

- (d.1) Authentication, Access Control, and Authorization
- (d.2) Auditable Events
- (d.3) Audit Report(s)
- (d.4) Amendments
- (d.5) Automatic Log-off
- (d.6) Emergency Access
- (d.7) End-User Device Encryption
- (d.8) Integrity

B. Current SOC 2, Type II audit with no material findings**

C. Current validated HITRUST assessment or NIST cybersecurity framework assessment**

- Be able to send information electronically to a QE in either CCD or C-CDA format

- Be licensed by New York State as an Article 28 Skilled Nursing facility, Article 36 Home Care facility (Certified Home Health Agency, Licensed Home Care Services Agency, Long-Term Home Health Care Program) or Article 40 Hospice facility
- Have at least one provider that accepts Medicaid (Fee-For-Service or Medicaid Managed Care)
- NOT** already be connected to a QE and contributing data
- NOT** have received payment from any source for similar HIE activities

New York State’s Qualified Entities

- Bronx RHIO
- HealthConnections
- HEALTHeLINK
- Healthix
- Hixny
- NY Care Information Gateway (NYCIG)
- Rochester RHIO

*If the EHR vendors meets requirement 'A', they must have and maintain a Certification Status of 'Active' from an ONC Authorized Testing & Certification Body (ONC-ATCB). EHR vendor may certify against additional Privacy & Security criteria as desired. Certification may be against the 2014 or 2015 Edition of ONC Certification. Additionally, the ONC-ATCB may also require (g.4) Quality Management System and/or (g.5) Accessibility-Centered Design.

**If the EHR vendor meets requirement 'B' or 'C', they must also provide NYeC with an attestation that demonstrates their product’s ability to meet the requirements 45 CFR 170.314(d)(1) through 170.314(d)(8) which represent the EHR features, functions, and behaviors related to privacy and security.
